

The Quality Policy of Larkshill Engineering Limited is: -

- **To design and manufacture machine tools, mould tools, press tools, jigs, fixtures and acceptance gauging fixtures for a wide range of industries including aerospace and automotive and provide a facility for sub-contract precision machining of metal components including EDM (electrical discharge machining) wire and spark eroding.**
- **To provide total customer satisfaction by offering a service which satisfy our customers', needs and expectations in the most efficient and cost effective manner and comply with all legislative requirements.**
- **To set quality objectives, which are reviewed at regular management reviews, to continually improve the efficiency and quality of our business.**

Our Quality Management System shall comply with

ISO 9001: 2015

This policy shall be reviewed annually to ensure that a never-ending policy of continual improvement is maintained, shall be communicated and understood throughout the company and made available to any interested party.

A handwritten signature in black ink, appearing to read "L. Smith", is written over a horizontal line.
