

The Environmental Policy of Larkshill Engineering Limited is: -

- To design and manufacture machine tools, mould tools, press tools, jigs, fixtures, special purpose machines and acceptance gauging fixtures for a wide range of industries including aerospace and automotive and provide a facility for sub-contract precision machining of metal components including EDM (electrical discharge machining) wire and spark eroding.
- To comply with all legal and customer requirements and protect the environment.
- To continually improve our environmental performance, prevent pollution, reduce waste and minimize any adverse effects on the atmosphere, water and land.
- To set environmental objectives, which are reviewed at regular management reviews, to continually improve the environmental performance of our business.

Our Environmental Management System shall comply with

ISO 14001:2015

This policy shall be reviewed annually to ensure that a never-ending policy of continual improvement is maintained throughout the company, shall be communicated and understood throughout the company and made available to any interested party.

A handwritten signature in black ink, appearing to read "F Murphy", is written over a light blue horizontal line.
