

Quality Policy

Larkshill Engineering Limited designs and manufactures machine tools, mould tools, press tools, jigs, fixtures, special purpose machines, acceptance gauging fixtures and precision machined components, including EDM wire and spark erosion services for customers operating in a range of industrial sectors.

The Company is committed to meeting the needs and expectations of its customers and other relevant interested parties by providing products and services that consistently meet applicable customer, statutory and regulatory requirements through the effective implementation and continual improvement of a Quality Management System that complies with ISO 9001:2015.

To achieve this commitment, Larkshill Engineering Limited will:

- Deliver products and services that meet applicable customer, statutory and regulatory requirements.
- Establish and review quality objectives to support continual improvement.
- Maintain and continually improve the effectiveness of the Quality Management System.
- Review this policy, quality objectives and the Quality Management System regularly to ensure its continuing suitability and effectiveness.

The Quality Management System is supported by documented processes, operational controls, internal audits and management review to ensure its effective implementation throughout the business.

This policy is communicated to all employees, made available to interested parties upon request and is reviewed annually.
